

From The Editor

Hi Folks,
Well this is my first attempt as Newsletter editor for our club
This newsletter is the forum for delivering interesting reading and news to our members. With this in mind I urge you all to submit items of interest through this newsletter instead of emailing all our members direct yourselves.
In this way the information is stored altogether in one place and all one has to do is peruse the newsletters to refresh their memory of an event or trip.

As Editor I reserve the right to edit any information received so as to fit in within the parameters' of this publication. Not all that you may send may be seen in the next issue but will be held on file as fill in articles for future use. But I will attempt to publish all information I may receive.

Please email your best photo for our photo of the month competition for inclusion in this newsletter. One photograph only per member.

Angie & myself will determine what we consider to be the best photo of the month submitted and include it in this newsletter.

At the first meeting after the AGM it is suggested that all the photo's for the year be viewed by the members and the **Best Photo Of the Year** selected as the overall winner.

A small prize will be awarded to that member.

PICTURE STORY – Jerren takes Mum for a run

Believe It Or Believe It Not!

Now this may sound a bit dubious but we did actually find these three bottles buried in the sand on our trip thru' the Simpson Desert with the Friends of The Simpson Desert in late May 2008.

They could not have been dug up at a more appropriate time as things where get a little bit dry.

They were found approximately 19 klms. west from the junction of the Collision and French Lines on the French Line. They were buried and wrapped in the high tech freezer bubble packaging, long since thawed, but not buried deep enough as the base of one of them was sticking out of the sand maybe 30mm.

This particular ones wine was bruised, but drinkable. The other two where particularly niiiyyicccce.

We figured they have been buried there for collection later, as we were not that far from the border of the Northern Territory and the Central Aboriginal Lands which is a dry (no alcohol) area.

Ken Paget.

P.S. Still have the empties if you care to see them.

various activities also needs to be considered.

Family Fun Day @ Bonython Park 17th October Hosted by the Subaru Club

Those of us that attended had a great time, especially the team from the High Range 4WD club. Three of them Dylan, his brother Ethan and there cousin, Jaden, were all winners, each receiving trophies for the three legged race, egg and spoon race, and dribbling the soccer ball through witches hats.

The Egg & Spoon Race shows a picture of concentration as Ken dashes towards the finish line, while Val all ready there with egg intact. Very eggciting.

There off and hopping in the Sack Race. No old bags here!

Team HR4WD Club

Even yours truly came third in the egg and spoon race out of a field of three.

Weather wise it was somewhat over caste and any threat of rain was not forth coming.

The Subaru Club organised this day out really put some effort into this day it is a great shame that the rest of the Association could not have made an effort to show their collective faces.

You may not have been there, but we had a good time. See the picture of the smiling faces.

Ken & Val Paget
